Executive Overview

Khalid Global Ventures is a multi-service business focused on helping organizations source products, coordinate services, and address operational and project requirements. Its service portfolio spans trading and supply, solar-related solutions, general labor support, HVAC systems, catering, construction support, information technology, and procurement.

The company seeks to build relationships with corporate buyers, contractors, facilities teams, project managers, and organizations in Saudi Arabia, the United States, and international markets, subject to applicable requirements and operational capacity.

Vision, Mission & Values

Our Vision

To become a trusted business partner connecting organizations with dependable trading, procurement, and technology solutions.

Our Mission

To provide responsive sourcing and practical business services that support clients' operational needs, while building relationships grounded in integrity, accountability, and mutual value.

Our Values

Integrity and transparency • Reliability and accountability • Customer focus • Professional communication • Continuous improvement • Long-term partnerships

Our Services

Trading & Supply

Sourcing and supply coordination for business, operational, and project requirements, based on agreed specifications, availability, delivery terms, and commercial conditions.

Solar Solutions

Coordination of solar-related product sourcing and project requirements in line with client specifications and qualified supplier or service-partner capabilities.

General Labor

Coordination of labor-related requirements in accordance with the agreed scope, scheduling needs, site rules, and applicable employment and labor requirements.

HVAC Systems

Sourcing and coordination for Heating, Ventilation and Air Conditioning (HVAC) equipment and related commercial requirements, subject to defined technical scope.

Catering Services

Catering coordination for workplaces, projects, meetings, and organizational needs based on agreed menus, volumes, schedules, food-safety requirements, and logistics.

Construction Support

Coordination of construction-related supplies and services according to project specifications, approved scope, site requirements, and applicable licensing obligations.

IT Solutions

Sourcing and coordination of business IT equipment, software, and technology-related requirements, with scope and compatibility confirmed for each engagement.

Procurement Services

Supplier identification, quotation coordination, comparison of commercial options, purchasing support, order follow-up, and delivery coordination.

Our Delivery Approach

01 Define the requirement

Confirm specifications, quantities, scope, delivery location, schedule, budget parameters, and acceptance criteria.

02 Source and coordinate

Identify suitable suppliers or service partners and coordinate options against agreed technical and commercial requirements.

03 Confirm scope and terms

Document deliverables, responsibilities, pricing, timelines, exclusions, and approvals before commitments are made.

04 Follow through

Provide clear updates and coordinate agreed actions through delivery or service completion.

Corporate & Cross-Border Engagement

Engagements are considered individually, with attention to procurement processes, technical specifications, commercial terms, delivery requirements, and compliance expectations. For Saudi and US opportunities, applicable laws, import/export controls, customs, tax, labor, product standards, insurance, and licensing requirements should be assessed for each transaction.

Contact & Business Enquiries

Email: k.globalventures1@gmail.com

Phone: 0530913230

Please share your scope of work, specifications, required timeline, delivery location, and any vendor-registration requirements.

Profile Note

This profile describes the company's stated service focus and intended approach. Specific service availability, technical capabilities, staffing, supplier arrangements, licensing, insurance, certifications, registration status, references, and delivery commitments must be confirmed for each opportunity. No client relationships, registrations, certifications, or completed projects are claimed.

KHALID GLOBAL VENTURES

OUR COMMITMENT TO SAUDI VISION 2030

Khalid Global Ventures aims to support the ambitions of Saudi Vision 2030 by providing dependable business services across trading, procurement, information technology, solar solutions, HVAC, construction, workforce support and catering.

Through responsive service, responsible sourcing, practical technology, and a focus on quality and accountability, we seek to help clients improve operations and contribute to a more diversified, innovative and sustainable economy.

*This statement describes our business direction and intended contribution.
It does not imply government affiliation, endorsement, or certification.*

ALIGNMENT WITH SAUDI VISION 2030

Supporting a thriving economy through dependable business services

Khalid Global Ventures recognizes Saudi Vision 2030 as the Kingdom's national roadmap for economic diversification, sustainable growth, innovation, and greater private-sector participation. Our service portfolio is positioned to support client operational needs in ways that are relevant to these priorities.

Economic diversification and private-sector growth

Trading, procurement, and cross-sector business support intended to help organizations source products and services efficiently.

Renewable energy and sustainability

Solar-related solutions that may support clients' energy and sustainability objectives, subject to project scope and applicable requirements.

Digital transformation

IT services designed to support practical technology needs, operational efficiency, and digital enablement.

Infrastructure and facilities

Construction and HVAC-related services intended to support building, maintenance, and operational requirements.

Reliable operations and workforce support

General labor and catering services that can contribute to day-to-day operations when appropriately scoped and delivered in compliance with applicable regulations.

Local and international procurement

Responsive sourcing and supplier coordination designed to support dependable supply chains and business continuity.

OUR COMMITMENT

We aim to build long-term client relationships through integrity, accountability, responsive communication, and practical service delivery. This statement describes our business alignment and intent; it does not imply government endorsement, official Vision 2030 partner status, or guaranteed contribution to national targets.

A VIBRANT SOCIETY

A THRIVING ECONOMY

AN AMBITIOUS NATION
